CITY CLERK
HONOLULU, HAWAII

Aloha Honorable City Council Members,

As you are aware, many including yourselves have worked tirelessly to get the rail project to this point. The Resolution No. 11-328, if approved, will ultimately kill the much needed rail project because it will cause delays and increased costs, and we may lose the federal funding that is forthcoming.

With water, sewer, and registration fees rising along with electricity, food, and transportation costs and no real employment opportunities even for part time work, we need the rail now and more than ever. Please, I ask for your favor and not allow this resolution to proceed forward.

Mahalo,

Georgette Stevens
